

We have been innovating for **35 years** to provide the best solutions to protect musical instruments and to travel with them.. Our cases are special because they are **handmade** and because we care about every detail of them. Working with important musicians is crucial for us because our products are the result of their experience.. BAGS cases are fully made in **our workshop in Spain**, from its design to the manufacturing process, up to the highest European quality standards. The main European instrument brands such as **Buffet, Engelbert Schmid, Paxman, Courtois, Besson, Voigt, Haag**, etc ..., trust us to manufacture their cases.

1989 We started to make the first cases of the **Professional Line**. Main improvements of these cases were the use of high-density foams, the introduction of wood and paperboard protections to preserve the instruments and the incorporation of hangers and straps to ease transportation. All these improvements represented a breakthrough in the sector.

1995 Cases of **Confort line**, made with expanded polystyrene, provided more protection to the instruments, These cases had a lot of success among students and professionals in more than 20 countries. Their design set a benchmark in the sector and was used afterwards by numerous manufacturers

2000 We continued innovating with **EcoBags line**, by introducing new designs and improving their transport. Thanks to new handles, hangers, wheels and trolley system. Travelling with instruments became much more easy and comfortable.

2010 We introduced Fiberglass in our cases with **SuperBags line**. With this material we reduced the volume of the cases to facilitate their transport especially by plane. At the same time we kept the same protection standards, offering fancy and trendy designs. This line became very popular and the first option for professional musicians in more than 26 countries like Germany, Australia, Canada, USA, Spain, France, England, Netherlands, Italy and Japan.

2014 We developed **Evolution line**, as a result of our constant wish to protect, we did everything possible to transport and keep the instruments in perfect condition. continue improving our cases. This line marked a turning point in Bags. Our cases became not only better outside but also inside; new designs up-to-date made of fiberglass and top quality finishes along with a better use of space making them more versatile, ergonomic and lighter.

BAGS was founded by the **Rivera Mota** family, since **2019** the **Spanish Brass**, is in charge of this brand, developing new models for the brand itself and new designs for different International instrument makers that will soon be presented.

TRUMPET

Weight.- 1'8 kg

External dimensions.- 55 x 25 x 15 cm

1 TRUMPET CASE EV-I

All our new generation **BAGS** cases incorporate significant improvements in terms of protection, functionality and versatility. The instruments are much better protected due their padded areas. In this way, the transmission of impacts is minimal. It can be comfortably carried as a backpack due to its two built-in ergonomic straps attached to the frame that make carrying the instrument easy and safe even on bicycle or motorcycle.

Compartments: two inner closed compartments, one for **1 straight mute** and one for **two mouthpieces**. It also features an external pocket for scores with capacity for a tablet.

1 TRUMPET CASE EV-3

(Oblong)

This case has removable straps and resin snap hooks.

Weight.- 2'1 kg

External dimensions.- 54 x 20 x 17 cm

3 TRUMPETS CASE EV-4

(2 Trumpets + piccolo, Trumpet + accessoires, Trumpet + Flugelhorn)

The **EV-4 case for 3 Trumpets** (2 trumpets + piccolo, trumpet + accessories, trumpet + flugelhorn) is an evolution of the EV-3 case for 3 trumpets and the "Flight" case for trumpet + flugelhorn. In short, we have created a much more versatile case that combines all the possibilities and needs of trumpet players.

Compartments: The case can be carried comfortably as a backpack thanks to the two built-in straps, making it very easy and safe to transport the instrument by bicycle/motorcycle. External pocket for sheet music with capacity for a tablet.

Instrument compatibility: Its new and versatile design allows it to be used with current models from the world's most renowned brands (Conn, Jupiter, B&S, Stomvi, Yamaha, Bach, etc.).

Weight.- 3'75 kg

External dimensions.- 54 x 27 x 19 cm

<https://youtu.be/5SuB303xhBQ>

4 TRUMPETS (2 TRUMPETS + FLUGELHORN) CASE EV-II

This model has been conceived attending the needs of the trumpet players. They usually need to carry several different trumpets for their performances. This case allows to fit either **4 regular trumpets** or **3 trumpets plus a piccolo trumpet** or **2 trumpets and flugelhorn** and accessories. It can be comfortably carried as a backpack due to its two built-in ergonomic straps attached to the frame that make carrying the instrument easy and safe even on bicycle or motorcycle. It also features an external pocket for scores with capacity for a tablet.

Compatibility: Its new and versatile design allows it to be used with the most globally recognized current brands and models (Shires, Conn, Stomvi, Bach, Yamaha, Schagerl, etc.)

Weight.- 4'2 kg

External dimensions.- 54 x 42 x 20 cm

<https://youtu.be/hHElpieOf0M?si=jYNvljagApfZjhiY>

ROTARY TRUMPET CASE EV-3

Weight.- 3'15 kg

External dimensions.- 54 x 27 x 19 cm

ROTARY FLUGELHORN CASE EV-3

Weight.- 3'15 kg

External dimensions.- 54 x 27 x 19 cm

The case is designed for **Rotary Flugelhorn + accesories**. The case can be comfortably carried as a backpack due to the two built-in straps, which makes it very easy and safe to transport the instrument on a bicycle/motorcycle

Outside pocket for sheet music with capacity for a tablet.

CORNET + MUTES CASE / BRASS BAND

The new **cornet + mute case (3 mutes)**, has been created to meet the needs of those cornet players who use different mutes or want to have space in their case for different accessories.

It can be comfortably carried as a backpack due to its two built-in ergonomic straps attached to the structure that make transporting the instrument easy and safe even on a bicycle or motorcycle. It also features an external sheet music pocket that can hold a tablet.

Compatibility: its new and versatile design allows its use with the most recognized brands and models worldwide (Conn, Stomvi, Bach, Yamaha, Besson, etc.).

Weight.- 3'45 kg

External dimensions.- 48 x 39 x 18 cm

FRENCH HORN

All our new generation **BAGS** cases incorporate significant improvements in terms of protection, functionality and versatility. It can be comfortably carried as a backpack due to its two built-in ergonomic straps attached to the frame that make carrying the instrument easy and safe even on bicycle or motorcycle. It also features an external pocket for scores with capacity for a tablet.

Compatibilities: Its new and versatile design allows it to be used with the most globally recognized current brands and models (Alexander, Conn, Schmid, Paxman, Jupiter, Yamaha, Stomvi, etc.)

FIX FRENCH HORN CASE EV-I

Weight.- 3'65 kg

External dimensions.- 60 x 42 x 36 cm

<https://youtu.be/cq26dc24g3c?si=kiFJeZmDpQc2i3kD>

FRENCH HORN DETACHABLE BELL CASE EV-II

All our new generation **BAGS** cases incorporate significant improvements in terms of protection, functionality and versatility. It can be comfortably carried as a backpack due to its two built-in ergonomic straps attached to the frame that make carrying the instrument easy and safe even on bicycle or motorcycle. It also features an external pocket for scores with capacity for a tablet.

Compatibilities: Its new and versatile design allows it to be used with the most globally recognized current brands and models (Alexander, Conn, Schmid, Paxman, Jupiter, Yamaha, Stomvi, etc.)

Weight.- 3'05 kg

External dimensions.- 49 x 42 x 28 cm

FRENCH HORN DETACHABLE BELL CASE "FLIGHT"

All our new generation **BAGS** cases incorporate significant improvements in terms of protection, functionality and versatility.

It can be comfortably carried as a backpack due to its two built-in ergonomic straps attached to the frame that make carrying the instrument easy and safe even on bicycle or motorcycle.

It also features an external pocket for scores with capacity for a tablet.

Compatibilities: Its new and versatile design allows it to be used with the most globally recognized current brands and models (Paxman, Alexander, Conn, Jupiter, Schmid, Yamaha, Stomvi, etc.)

Weight.- 3'7 kg

External dimensions.- 60 x 39 x 18 cm

<https://youtu.be/y9BclcDcj1w?si=KeHKcYXu1-MlgXMu>

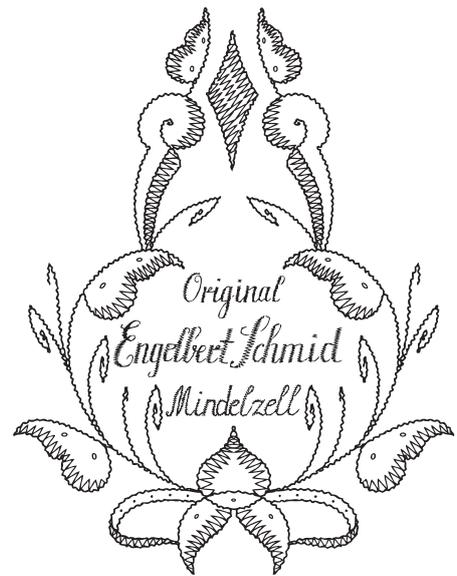

FRENCH HORN DETACHABLE BELL CASE "FLIGHT"

"Engelbert Schmid" MODEL

The "**Engelbert Schmid**" model case is an evolution of our "Flight" case with the peculiarity that two bells fit inside and has a second external front bag, where more scores or documents can fit and an external section for a folding music stand, with all the other characteristics of our "flight" model of lightness, compatibility and backpack straps to be carried.

Weight.- 3'70 kg

External dimensions.- 60 x 39 x 28 cm

FRENCH HORN DETACHABLE BELL CASE "SUPER-FLIGHT"

The new "SUPER-FLIGHT" model is the evolution of our current "FLIGHT" one, with the aim of reducing its dimensions. It complies with all the extraordinary security measures of "FLIGHT" but with a considerably smaller size and a cooler look.

The body is even extra protected due their padded areas and it is also covered and protected by an extra pad bag on top where the bell rests. In this way, the transmission of impacts is minimal.

Even though it is smaller than the previous case, it has a bag for a **mute and for the "bouché"** if necessary. It can be comfortably carried as a backpack due to its two built-in ergonomic straps attached to the frame that make carrying the instrument easy and safe even on bicycle or motorcycle. It also features an external pocket for scores with capacity for a tablet.

This case has removable straps and pouch and resin snap hooks.

Compatibilities: Its new and versatile design allows it to be used with the most globally recognized current brands and models (Paxman, Schmid, Alexander, Conn, Jupiter, Stomvi, Yamaha, etc.)

Weight.- 3'55 kg

External dimensions.- 48 x 39 x 20 cm

<https://youtu.be/Hlb0i3Hr1Bc>

NATURAL HORN CASE EV-3

This model has been conceived attending the needs of the Natural Horn players due the low quality and quantity of the existing cases.

It has a capacity for **10 separated crooks** with individual bags for each one. The body is well protected due their padded areas and it is also covered and protected by an extra pad bag on top where the bell rests. In this way, the transmission of impacts is minimal. It can be comfortably carried as a backpack due to its two built-in ergonomic straps attached to the frame that make carrying the instrument easy and safe even on bicycle or motorcycle. It also features an external pocket for scores with capacity for a tablet.

Weight.- 3'5 kg

External dimensions.- 60 x 42 x 36 cm

https://youtu.be/eoNRsUqHxpg?si=GqDPKK3U8bRUt_7J

Weight.- 3'65 kg

External dimensions.- 60 x 42 x 36 cm

VIENNA HORN CASE EV-3

The new "Vienna Horn Case" is inspired by the **EV-I (fixed model)**, designed exclusively for those professionals who use this particular horn model so popular in Austria and Germany. The body is extra protected due their padded areas and it is also covered and protected by an extra pad bag on top where the bell rests. In this way, the transmission of impacts is minimal. It can be comfortably carried as a backpack due to its two built-in ergonomic straps attached to the frame that make carrying the instrument easy and safe even on bicycle or motorcycle. It also features an external pocket for scores with capacity for a tablet.

ALTO HORN CASE / BRASS BAND

The new "**Alto Horn**" case is conceived from the "Flight" horn case, designed exclusively for those professionals who use this particular model of instrument so popular in the "**Brass Bands**".

The body is extra protected due to its padded areas and is also covered by an additional padded "stopper" at the top. In this way, impact transmission is minimized, and there is a compartment for the mute or other accessories if desired, as well as a compartment for accessories, oils or small utensils. It can be comfortably carried as a backpack due to its two built-in ergonomic straps attached to the structure that make transporting the instrument easy and safe even on a bicycle or motorcycle. It also has an external sheet music pocket that can hold a tablet.

All our products have a legal warranty of 3 years for manufacturing defects in materials and workmanship. Within this period, if your product has a manufacturing defect, we offer you the possibility of having the product repaired free of charge or replaced with a new one, as appropriate after assessing each case.

This 3-year warranty is in response to the legislative change in art. 16.7 of Royal Decree-Law 7/2021 of April 27th and affects products purchased from 01/01/2022. For products purchased prior to this date, the current legal warranty is 2 years.

In all cases and in order to assess the warranty of your product, it will be essential that you provide us with the receipt or proof of purchase. Otherwise, we will not be able to evaluate or process the warranty.

The warranty does not cover damages that the product may suffer as a result of accidents, improper care, negligent use and normal wear and tear due to use or the natural deterioration process of the fiber.

All our warranties are subject to prior appraisal.
